Debbie Odom commented that the signs held right behind speakers are disruptive and then talked about airport operations and the budget and asked why no fees had been implemented to charge for touch-and-go operations which would help make the airport self-sustaining.

Mayor Hidalgo-Fahring asked for people to be respectful of speakers and not distract them by holding or moving signs in a way that is distracting to a person at the podium.

Scott Stewart commented on the airport and asked why rates and charges had not been adjusted, why rules and regulations did not seem to be followed, and if a recent incident of a skydiver landing outside the drop zone was reported as required. 12. GENERAL BUSINESS

A. Purchasing Decision Appeal To City Council Pursuant To Longmont Municipal Code Section 4.12.400

Sandi Seader, Assistant City Manager, introduced the item and explained that under Longmont Muncipal Code Section 4.12.400, when a vendor challenges a decision, the appeal goes to the Purchasing Manager, which occurred and the Purchasing Manager denied the appeal. Next, an appeal was made to the City Manager who also denied the appeal. The final step is to appeal to Council.

Seader noted that because both the Purchasing Manager and City Manager had already provided a ruling, they could not take part in the appeal process before Council. She then reviewed that a Request for Proposals (RFP) was issued on May 19, 2026 with proposals due on June 17, 2026 at 5 p.m. All proposals are submitted through BidNet. On June 19, OneSource attempted to submit a proposal but couldn't because it was past the deadline and then they tried to submit via email but that attempt was rejected for being tardy. Because the decision was appealed to the Purchasing Manager and denied, then appealed to the City Manager and denied, OneSource is asking Council to overturn those decisions.

Tom Mason of OneSource, the appellant, asked for relief and assured the Council this was an honest mistake and no competitive advantage was gained nor was another bidder prejudiced. He shared that OneSource has hosted more than 6.3M city utility statements for more than 12 years with greater than 99% performance. He asked Council to allow them to bid.

Council then asked various questions about the frequency for this bid and if a bidder had been chosen. Seader responded that this is a one year contract with four extensions and noted that the process halts when an appeal is requested and, thus, no vendor had been chosen.

Council asked how many appeals there are and how many procurements the City does on average. Seader responded that this was the second appeal in 28 years and said there is an average of about 60 procurements per year for formal solicitations.

Council engaged briefly with Mason about the submittal deadline and Mason acknowledged that they orginally thought the deadline was June 17 but searched for an amendment and got the information from Google that the deadline was the 19th and said that seemed normal to see dates extended. They tried to reproduce the search and couldn't and got another result showing June 30th as the deadline.

Some Council Members noted that they were sympathetic and noted that there is also a human responsibility in checking deadlines and not relying just on web search results.

MOTION
Matthew Popkin moved, seconded by Jake Marsing, to uphold the City Manager's decision and deny the appeal

Approved: Susie Hidalgo-Fahring, Sean McCoy, Diane Crist, Alex Kalkhofer, Jake Marsing, Matthew Popkin
Dissented: Crystal Prieto
